Fly Lab

1. Clone my git repo: https://github.com/jbrotsos/ATDP.git or go to the webpage:
   - https://github.com/jbrotsos/ATDP/blob/master/labs/there_was_an_old_lady.txt
2. Open eclipse, create a new java project and a new class named OldLady.java
3. Cut and paste the contents of ATDP/labs/there_was_an_old_lady.txt into the main class in HelloWorld.java
4. Add System.out.println before each line and add parenthesis and quotation marks where needed. Example:

Change:

There was an old lady who swallowed a fly.

to:

System.out.println ("There was an old lady who swallowed a fly.");

5. Click the green arrow to run the program
